Weekly News from the Florida State College

Prepared Especially For The Tribune

FLORIDA STATE COLLEGE FOR WOMEN, TALLAHASSEE, Feb. 2.—The Mozart Opera Comique, "The Impressario," under the direction of William Wade Hinshaw, was presented to the student body and faculty of the Florida State College for Women, on Monday evening, January the twenty-eighth.

The leading role was taken by Percy Hemus, who is not only a vocalist of recognized superiority, but a brilliant actor and classic comedian as well. The other members of the cast are also fine artists in voice. The cast follows:

Emanuel Shickaneder, director Vienna opera house, Percy Hemus.

Phillip, his nephew, a young barton, Francis Tyler.

Mozart, the composer, Charles Massinger.

Madam Hofer, Mozart's prima donna, sister-in-law, Hazel Huntington.

Mlle. Dorothea Uhlic, singer of Linz, Lottice Howell.

Accompanist of Shickaneder, Gladys Craven.

The presentation of "The Impressario" was an event of great pleasure both to the College students and to the people of Tallahassee. The credit for bringing the opera to this city is due to the combined efforts of the College and the Woman's Club and the American Legion of Tallahassee.

Student Convention

Misses Alice Albury, of Tampa, and Jeanne King, of Bonifay have been chosen delegates from the Florida State College for Women to the Southern Student Convention, which will be held Feb. 8-10 at Wesleyan College, Macon, Ga. At this Convention, every college in Florida and Georgia will be represented, and this College feels that great enthusiasm and splendid ideas will be brought back by its two delegates.

Senior Carnival

Following the precedent of former years, the various classes of the college are now making plans for the annual Senior Carnival. Although primarily conducted by the Senior class, each class takes a part in this elaborate affair, whic therefore consists of four parts.

The Seniors will present the Coronation of the king and Queen of the Carnival, whose identity is kept secret until the evening of the coronation. Both King and Queen must, of course, be from the Senior class. Interest is now running hig as to which girls will be elected to these honored positions. The nominations from the various classes and the final vote of the student body have already been handed in, so there is nothing to do but wait for the secret to be divulged.

The Junior Class always contributes a minstrel show. Judging from the dandy material available for such a show, the Juniors' performance ought to be extremely unique and mirthful. "The Purple and Lavender All-Star Minstrels," presented by the Junior Class of last year, made an enormous hit, and set a pace which will require the best originality and greatest efforts of succeeding classes.

The Sophomore and Freshman classes have not yet announced the nature of their respective contributions to the Carnival, but they are sure to bring forth something very entertaining.

From all sides, the prospects are splendid for a Senior Carnival even surpassing those of former years in beauty, elaborateness, and entertainment. It will take place during the latter part of February or the first of March. Since the College auditorium is being rebuilt, and is therefore not available, the Coronation and Minstrel, at least, will probably be given at Daffin's Theater, in town.

THE DIRECT TREATMENT
FOR ALL COLD TROUBLES

Rub It On For Deep Chest Colds

ABSORBED like a liniment and at the same time INHALED as a vapor, Vicks gets immediately into congested, inflamed air passages

NEVER NEGLECT A CHEST COLD. If allowed to "hang on" it means lung tissue weakened, air passages predisposed to infection. There is then danger of pneumonia and pneumonia is now more deadly than tuberculosis.

When a cold goes down deep, with soreness, tight breathing and a heavy, hollow cough, apply hot wet towels over throat and chest to open the pores of the skin.

Massage briskly with Vicks for five minutes, then spread on thickly and cover with two thicknesses of hot flannel cloths. Leave the bedclothing loose about the neck so that the vapors arising may be freely inhaled. These vapors, inhaled with each breath, carry the medication directly to the affected parts.

At the same time, the penetrative and stimulative effect of Vicks through the skin increases the circulation of the blood throughout the chest region, and thus helps to relieve the tightness and congestion.

VICKS IS A BOON TO MOTHERS because it is an "outside" treatment. There is no dosing to upset a child's delicate stomach. You just rub it on.

Vicks is a combination in salve form of the old, time-tested remedies for colds—Camphor, Menthol, Eucalyptus and other volatile oils. Being externally applied, it can be used as freely and as often as desired, even on the youngest child, with perfect safety.

When the kiddies come in wet and "sniffling" Vicks is applied to prevent colds. An application at bedtime will usually prevent a night attack of croup.

Just as good, of course, for the cold troubles of adults—sore throat, tonsilitis, head and chest colds, bronchitis, coughs.

Made at first in the back room of a little drug store in North Carolina, Vicks has so consistently demonstrated its worth that now it is more widely used than any other remedy of its kind.

How Vicks Should Be Used

For Spasmodic Croup, Children's Colds—Rub Vicks over the throat and chest until the difficult breathing is relieved, then spread on thickly and cover with a hot flannel cloth. One application at bedtime usually prevents a night attack of croup.

For Head Colds, Asthma, Catarrh, Hay Fever—Vicks should be melted in a spoon and the vapors inhaled, or a little can be applied up the nostrils and snuffed well back up the head.

For Deep Chest Colds, Sore Throat, Tonsilitis, Bronchitis, Coughs—Rub Vicks briskly over the throat and chest. In severe cases first redden the skin to open the pores (see directions). Then spread on thickly and cover with one or two thicknesses of hot flannel cloths. Leave the bedclothes loose about the neck so that the vapors may be freely inhaled. If the cough is annoying, a small piece the size of a pea can be swallowed every two or three hours.
