President Needs 'Tools' for Job

INDIANAPOLIS, Oct. 23. —(AP)—Secretary of the Treasury Humphrey called tonight for election of a Republican Congress to give President Eisenhower "the tools with which to do his job."

"I cannot impress upon you strongly enough the great importance of retaining a Republican majority in each house of Congress," the cabinet member said in a speech for the Indiana Republican Editorial Association.

Humphrey added: "Every voter who voted for President Eisenhower in 1952, if he now fails to vote for a candidate who will support him in November, 1954, is tying the President's hands."

Knight Again Asks Closure Of Refineries

By Associated Press.

LOS ANGELES, Oct. 23. — Gov. Goodwin Knight renewed his appeal today for a temporary smog-test shutdown of oil refineries and announced he is allocating $100,000 to attempt to learn "when smog becomes a killer."

"The governor, whose shutdown plea was rejected emphatically yesterday by the multi-million-dollar oil industry, declared today:

"I feel very confident that when the big oil companies . . . soberly reflect on my reasonable request, they will accede to it and give the people of this stricken area a fair test to measure their responsibility in causing smog."

Many citizens label the refineries the No. 1 smog producers. Oilmen deny this, pointing to some $20,000,000 worth of smog-control equipment they have installed at refineries and tank farms.

Knight said he is turning the $100,000 over to the State Health Department to obtain "the best scientific talent in the nation" to study the health aspects of the eye-stinging stuff.

Veteran Bank Teller Admits Taking $5,500

WISCONSIN RAPIDS, Wis., Oct. 23.—(Chicago Tribune Press Service—Raymond F. Bunde, a 20-year employe of the Wood County National Bank here, was in jail today on an embezzlement charge after admitting he had taken about $5,500 of the bank's money.

The 46-year-old teller said he had used the money for "living expenses" to supplement his salary of $4,600 a year.

Bunde lived modestly, drove an old car, and was not known as a heavy spender. He is married and has four children. The shortage was uncovered by a routine audit, and yesterday bank officials confronted him with the audit figures. Bunde readily admitted he had been dipping into the bank's funds for $200 and $300 at a time for the last two years.

Woman Employe Of Bank Accused Of $91,000 Theft

WICHITA, Oct. 23. — (AP) — A 41-year-old mother was accused today of embezzling more than $91,000 from the bank where she had been employed for 21 years.

Mrs. Virginia Rice indicated she would waive preliminary hearing and grand-jury indictment. She was arraigned before United States Commissioner Arthur G. Johnson, Jr., this afternoon. She was released under $3,000 bond.

Mrs. Rice specifically was charged with embezzling $300 last May 18 from the American National Bank of Hutchinson, but bank officials said the shortage in her accounts would exceed $91,000. The Federal Bureau of Investigation said the $300 represented "just one day's transactions."

At least four ships have been sunk by charging whales.

Dentists Hear Address On Children's Tooth Problems

Parents often can do a number of things to prevent their children from developing serious tooth problems, Dr. Eugene F. West, faculty member of the University of California School of Dentistry, San Francisco, said here yesterday.

DR. EUGENE F. WEST

Dr. West was here to address the Washington State unit of the American Society of Dentistry for Children at the Hotel Edmond Meany. More than 40 dentists attended.

"Any parent can try to prevent thumb-sucking, can insist on proper care of the deciduous, or baby, teeth," Dr. West said. "And the parent can see that adequate space-maintainers are placed promptly in the child's mouth when he loses his first teeth, to prevent crowding of the permanent teeth."

"Sucking is a normal, childish reaction and certainly not every thumb-sucking child develops orthodontic problems," Dr. West said. "But some crooked teeth do result from continued sucking."

Dr. West said it is the pressure exerted by the muscles during sucking, sometimes aided by pressure of the thumb, that causes the damage, not just the gripping of the thumb by the teeth.

Alert parents who take their children to a dentist early, and see that his teeth regularly get professional attention between the ages of 3 and 12, can prevent time-consuming corrective work later, he emphasized.

Reports of Nightly Parties In Boston Jail Investigated

By United Press.

BOSTON, Oct. 23.—The United States attorney's office today investigated reports that women prisoners and their guards held nightly parties at Boston's famed Charles Street jail.

Assistant District Attorney Edward M. Sullivan directed the investigation.

Sullivan said his men, including three Boston police detectives, were looking into reports that "privileged" jail officers "questioned" female inmates into the wee hours of the morning in a little-used-upstairs room at the jail.

Sullivan said he also had been told of women prisoners being seen with jail officers at a gay cafe rendezvous outside prison walls.

The reports were denied angrily by a spokesman for the jail's personnel. James Meade, a guard and president of the Jail Employes' Union (A. F. of L.), said the stories about women prisoners were "figments of somebody's imagination."

"We want this matter cleared up immediately," Meade said. "We don't want to live under any such cloud as that."

Help Offered And Accepted —At $750 Cost

DALLAS, Tex., Oct. 23.—(AP)—Courtesy proved costly today for Mrs. Della Leonard, a bookkeeper.

Mrs. Leonard was alone in her wholesale-market office when a helpless-looking man, about 50, walked in out of the drizzle. She said he just stood around in the lobby "like he didn't know what to do."

Mrs. Leonard walked out and said, "Can I help you?" The stranger nodded that she could.

"I want all your money," the man said, pulling a shiny pistol. He took $750 from the cash drawer, walked out and sped away in a station wagon.

Boys, Overcome By Gas, Saved By Little Sister

WAUSAU, Wis., Oct. 23.—(AP)—An 8-year-old girl, who awakened in her gas-filled room and noticed that her sleeping brothers were "turning blue," probably saved four lives today.

The little girl, Randy Ann, woke up her mother, Mrs. John Richards. The mother carried Randy out of the house. The youngster collapsed. Then Mrs. Richards went back in and carried out her sons, Michael, 6, and John, Jr., 5. Bother were unconscious.

The Fire Department said Richards lighted a water heater when he went to work but that the flame went out and gas seeped through the house.

Leader of Negro League Suffers Heart Attack

NEW YORK, Oct. 23.—(UP)—Walter White, executive secretary of the National Association for the Advancement of Colored People, is in a hospital recovering from a heart attack. He will not be able to resume his duties for an indefinite time, it was disclosed today.

White re-entered New York hospital October 12 after a hospitalization of four days.

River Dragged For Banker

HILLSBORO, Ore., Oct. 23.—(AP)—Dragging of the Tualatin River south of here today failed to turn up any clues as to the whereabouts of a missing bank president, William C. Christensen.

The official of the Commercial bank of Oregon disappeared Thursday afternoon. His automobile was found yesterday near the river. His hat and coat were found about 200 feet downstream.

Christensen, 61, graduated in chemical engineering at the University of Washington.

Engineers to Meet

E. R. Perry, application engineer for the Allis Chalmers Manufacturing Co., will speak at a meeting of the American Institute of Electrical Engineers at 8 o'clock Tuesday night in Bagley Hall, University of Washington.

PULLMAN, Oct. 23.—(UP)—Claire Dobler, Everett, today was elected president of the Washington State College Dads' Association.

West Advised To Agree On Reclamation

By Associated Press.

PHOENIX, Ariz., Oct. 23.—W. A. Dexheimer, commissioner of reclamation, today called on the 17 Western states to present a united front in behalf of reclamation projects.

In an address before a meeting of the Arizona Reclamation Association, Dexheimer said, "The most important factor in the future of reclamation is a strong, united front by all of the Western states . . . the West must close ranks and agree on general policies and a determination as to the best program for future development."

He pledged continuation by the government of efforts "to push forward for maximum utilization of the water and land resources in the 17 Western states."

Referring specifically to the use of Colorado River water, Dexheimer took note of the dispute between California and Arizona over that water without mentioning the name of either state.

"Solution of the controversy regarding respective rights of the lower basin states to the use of Colorado River water," he said, "will be good for the federal government as well as the states.

As an example of the national advantages of reclamation projects, Dexheimer pointed out that the government invested $23,000,000 in the Salt River Valley project in Arizona last year and received in income taxes alone from farmers in Maricopa County, which is served by the project, about $10,000,000.

Rabbi Tells Of Activities For Christian Faiths

NEW YORK, Oct. 23.—(N.Y. Times News Service)—Rabbi Hyman Judah Schachtel of Houston said today that the ruling of the Supreme Court of the United States, outlawing racial segregation in the public schools was "obviously good" because it "brings us closer to our fellow men."

The rabbi disclosed that he will speak at a fund-raising drive for the Dominican Sacred Heart College for Women, a Roman Catholic school in Houston. He served in a similar capacity recently for a Methodist Church and an Episcopal hospital.

Edmundson to Speak

Clarence S. Edmundson, former basketball and track coach at the University of Washington, will speak on "Some Outstanding Athletes I Have Known" at a meeting of the Kiwanis Club of Seattle Tuesday noon at the Stewart Hotel.

GETTING UP NIGHTS MAKES MEN FEEL OLD BEFORE THEIR TIME

Thousands Discover Quick Help For Worry and Embarrassment of Common Kidney And Bladder Irritations

Are you one of the thousands of men who feel old, tired, worn-out and depressed by losing sleep and worrying about Getting Up Nights, due to common irritation of the Kidneys, Bladder and Urinary Passages? And does this condition cause frequent, urgent and painful daytime urination? If so, don't be like most men who will do anything for the family but neglect themselves.

Your welfare, happiness and earning power are too important to postpone medication for a condition that may become aggravated through neglect. This is especially true since it is so easy for most men to find quick, gratifying comforting help for the above urinary complaints with New Improved Cystex.

Other Symptoms

Common Kidney and Bladder Irritations may also cause Nagging Backache, Strong, Cloudy Urine, a feeling of fullnes over the Bladder and Bladder Cramps. Resulting secondary symptoms may cause miserable, referred aches and pains such as common headache and nervous tension.

Old, Tired, Worn-Out Feeling May Result

If frequent, burning urination worries you and hits you at the most embarrassing moments, you are bound to feel tense and nervous. Then if your sleep is disturbed by Getting Up Nights you can't get much rest, and you wake up feeling tired and groggy—yes, you really begin to feel old—much older than you should. And if your back aches you feel grouchy—hard to get along with—and your work is a burden. Troubles such as these take the joy out of life. And if any of your women folk suffer from common Kidney and Bladder Irritations you should make sure that medication is started without delay. They can work better and are better companions when they feel better.

Cause of Irritation

The cause of common Kidney and Bladder Irritation usually arises from a germ called the Colon Bacillus and non-specific germs resulting from colds, bad teeth and other causes. These germs can set up so much irritation in the kidneys, bladder and urinary passages that nature sends a warning through your nerves to your brain that help is needed. Heed this warning now and you may easily avoid many anxious, worrysome hours and days.

How Cystex Helps

New Improved Cystex is a scientifically compounded medicine that does not contain any drastic drugs, but through its two-way action helps nature in a gentle, soothing, refreshing way.

First: New Improved Cystex releases a gentle, soothing bacteriostat in acid urine to combat germs which may be causing irritation. This is a good deal like a gentle, soothing bath for the kidneys, bladder and urinary passages.

Second: Cystex contains one of the greatest analgesics for soothing, gentle pain relief of the discomforts due to common Kidney and Bladder Irritation.

This, it is amazing to feel the wonderful, blessed results so promptly in those cases where Cystex acts effectively, and in such cases where irritation and frequent night and day urination subside, nature takes over to give you her benefits of refreshing, energizing sleep, quieter nerves, and the feeling of normal pep to enjoy life.

Used by Millions

Cystex has a remarkable background of experience and success. For nearly a third of a century it has been scientifically produced under the direct supervision of the Control Laboratory of The Knox Company—one of the largest pharmaceutical companies of its kind in the world. During this time, over a billion Cystex tablets have been used by millions of sufferers around the world in upwards of 70 different countries. Such enduring popularity proves safety and success.
