

### FORENSIC TROPHY

## Grossmont Junior Wins State Prize As Best Speaker

A. Christine Baron, 17, a Grossmont High School junior, won the top prize in dramatic interpretation at the National Forensic League's California State Finals tournament in Stockton.

A. CHRISTINE BARON  
... trophy winner

Miss Baron is the first San Diego County high school student to win a first place trophy in the state competition in 15 years.

She will travel to Kansas City, Mo., to compete in the Forensic League's national finals from June 15 to 19.

Lee Lokey, a Hilltop High senior, also qualified for the Kansas City event after winning a previous tournament.

Miss Baron will read a 10-minute scene from Euripides' "Medea" in Kansas City. It's the same scene she read in Stockton and at a state qualifying tournament at San Diego State College.

She competed against 45 others at the Stockton tournament and was judged on voice, facial expression and hand gestures.

"There is no acting at all," Miss Baron explained. "And you have to use different voices for the different characters."

Miss Baron maintains a 4.0 grade point average, plans to attend Radcliffe College in Cambridge, Mass., and to study law.

She attributes her success in speech competition to Grossmont High teachers Jane Arnold, Sharon Galvin and Alta Hagen.

## Grossmont Praised For 'Dialogue'

### C Of C Directors Congratulate School For Staying Open

EL CAJON — Grossmont College's "Dialogue With Reason" program on campus last Saturday was praised yesterday by Chamber of Commerce directors here.

Board members voted unanimously to write letters to the students, faculty and trustees commending the college for the program that was conducted while other public colleges and universities in the county were closed.

Grossmont remained open after Gov. Reagan ordered a shutdown of state colleges and universities and suggested that community colleges follow suit.

4 TO 1 VOTE  
However, the final decision was left to local boards, and Grossmont trustees, after meeting with students, voted 4-1 to keep classes in session May 7 and 8. The campus was to remain open on a 14-hour basis beginning May 7.

Last Saturday Grossmont students held meetings with members of the surrounding communities to discuss current issues, including violence, protest, United States involvement in Southeast Asia and other matters.

Students went door-to-door to invite residents from the surrounding communities. The effort was the students' way of waging a non-violent protest against violence, they said.

SPECIAL COMMITTEE  
The motion to write the letter of commendation to the college was made by director William Elliott and seconded by Lloyd Pullen.

In other business, directors approved formation of a special committee to study the city's sign ordinance. Elliott has been appointed chairman and membership will include volunteers from the community.

The committee was formed after directors heard a letter from El Cajon Mayor James C. Snapp about a recommendation in a general plan report concerning the city's sign and billboard ordinance.

Board directors also went on record, by 13-1, against Proposition 8, an initiative measure supposed to ease property taxes.

## College Cuts Magazine To Single Issue

CHULA VISTA — Montage, the Southwestern College student magazine, has been cut from two editions to one edition per year, it was learned yesterday.

Saxon Wraith, vice president for academic affairs, said yesterday that reducing the frequency of publication was based on use of faculty resources relative to the needs of students.

Wraith said there were not enough students enrolled in the magazine writing class, which produced the magazine, to justify twice-a-year publication.

This same decision was made a year ago, he said.

### TOTS GET A PREVIEW PEEK

Shannon Oylar, 3, left; Gary Halvin, 4, and Jimmie Wilbur, 5, pupils at Fletcher Hills Presbyterian School, yesterday got a preview of reading program at Fletcher Hills branch of San Diego County Library.

## Council Gives Raises To 342 At Oceanside

OCEANSIDE — City officials yesterday stressed that a pay raise totaling \$226,000-a-year granted late Wednesday by the City Council to 342 employees is a "parity raise" while study continues.

Rises of from 2½ to 10 per cent for all but 18 of the 360 employees — effective June 1 — were based on a survey made in April by the Griffenhagen-Kroeger consulting firm.

"The report stressed this would bring them into parity with other cities and agencies," said Ernest A. Taylor, assistant city manager.

City Mgr. Lawrence Bagley recommended the same firm continue its survey for more raises to take effect July 1 and the council agreed.

POLICE ULTIMATUM  
Police, who had given an ultimatum to Bagley that they wanted substantial pay increases, got 7.5 per cent. So did firemen. Police said this leaves them 2.5 per cent below the present scale in San Diego, where police are asking a 22.5 per cent raise and firemen are striking.

Mrs. Dorothy Jauer, personnel and finance officer, said the survey adopted provided no increases for clerk typists, library aides and meter readers.

5 PER CENT HIKES  
The largest group, 54 of 114 categories, got 5 per cent. It includes clerical, mechanical, engineering aide, waste disposal and maintenance workers.

The 10 per cent raises were for the smallest group. It includes building inspectors, bus dispatchers, some public works foremen and leadmen.

Councilmen approved filing a request for a federal grant of \$36,585 based on population for possibly a \$100,000 program of beautification and park improvement. It would help pay for horticultural supplies, picnic pads, landscaping, sprinklers, park furniture, restrooms and play areas in beach and park locations.

## 8th Graders Win Speech Honors

SANTEE — Beverly Bryan, an 8th grade student at Carlton Hills Junior High School, has won top honors in the annual Santee-Lakeside Rotary Club's speech contest.

Randy Howard, of Cajon Park Junior High, won second place honors in the finals held Wednesday night at Santee School.

The 12 finalists were among 509 8th grade students in the Santee School District who competed in preliminary contests in their individual schools.

Tonya Lay, Chet F. Harrett School, was third; Becky Pilcher, Cajon Park, was fourth, and Steve Burbridge, Pepper Drive School, was fifth.

## Cleanup Planned At Spring Valley

### Two-Day Campaign Starts Tomorrow, Hundreds Expected To Take Part

SPRING VALLEY — A two-day cleanup campaign is scheduled to get under way here tomorrow in an effort to rid the community of litter.

Herb Kattel, chairman of the drive, said several hundred persons are scheduled to take part in a kick-off ceremony for the event tomorrow morning.

"Then they will cover the Spring Valley area and rid it of pollution," he said.

STARTS AT 10 A.M.  
The campaign will begin at 10 a.m. in front of the fire station at the corner of Gillespie Drive and Oroville Street, he said.

Miss Spring Valley, Janet Isley, will lift the lid on one of many trash bins that have been placed at focal points in the community, he said, and the clean-up will begin.

William Fitzpatrick, Community Council president, said

three disposal companies will be in constant operation hauling away the bins, at no charge, as they are filled.

He said eight troops of Boy Scouts, student groups from five schools, and members of the Community Council will take part.

The San Diego City and County War Against Litter Committee also will assist in the drive.

OTHER CAMPAIGNS  
Major cleanup efforts are planned in Vista and Linda Vista during "Fire Safety and Litter Prevention Days," May 17 through 23, according to a chamber spokesman.

He said many smaller projects also will be undertaken.

## Lakeside Firemen Ask Higher Raise

LAKESIDE — local firemen, whose demands for increased wages and a shorter work week have been rejected by Lakeside Fire Protection district directors, plan to meet tomorrow to determine their position at the final budget hearing in June.

Charles Rodgers, president of the 12-member Firemen's Association, said that salary increases ranging from 8-15 per cent have been rejected by board members.

Rodgers said the district first offered a \$35 a month across the board increase that was rejected and then proposed a 7 per cent increase that also was rejected.

Firemen met with board

members last night and their bid for up to a 15 per cent increase, depending on rank, plus a shorter work week, was rejected by directors.

Earlier, the firemen's wives had picketed the fire station in support of their husbands' request.

Rodgers said that Robert Croch, chairman of the salary committee, gave the board a request that the starting salary be increased from \$535 to \$624; for first class from \$675 to \$840; for engineer from \$730 to \$840; and for captains from \$780 to \$921.

Firemen work a 72-hour week but are requesting a cutback to 70 hours.

## Border Entry Urged Near Brown Field

### Chula Vista Chamber Committee, Tijuana Group Prefer Airport Site

CHULA VISTA — The Chamber of Commerce board is considering a recommendation that the second entrance into Mexico be constructed near Brown Field rather than near Playas de Tijuana.

Niek Slijk, chamber manager, said yesterday that the board referred the proposal back to the Mexico, the Streets and Highways, and the Industrial Development committees.

The Mexico Committee recommended that the board support the Brown Field proposal, which has been discussed with the Tijuana Chamber of Commerce, Slijk said. He said the Tijuana chamber is in full agreement with the proposal because it would guide more traffic through both communities.

It also would assist in opening the Brown Field area to industrial development and provide easier access to the international airport in Tijuana, according to the committee report.

At present, second entrance into Mexico is planned near Playas de Tijuana, a beachfront suburb on the freeway to Ensenada.

If the recommendation is approved, Slijk said, it would be forwarded to the state Division of Highways, the Legislature and appropriate members of Congress.

The proposed entrance would be an extension of Interstate 805, which is scheduled to run east of this city to the border, Slijk said.

OTHER MATTERS  
In other business, the board approved a report by Ken Wood, chairman of the Legislative Committee, that a chamber-sponsored political action course start May 27.

Slijk said the course follows the guidelines of the U.S. Chamber of Commerce and is non-partisan. It is a discussion-type course, he added, where members play different roles in the political process.

The group will meet Wednesdays from 7 to 9 p.m. and interested persons may call the chamber office for more information.

The board also approved a recommendation by the Community Promotion Committee that the chamber not participate this year in the San Diego County Fair. It was decided to form a special committee this year to study future participation, Slijk said.

## Hoover Musicians Will Give Concert

Hoover High School's concert band, orchestra and stage band will present a concert of classical and popular music at 7:30 p.m. Wednesday at the school's auditorium, 4474 El Cajon Blvd.

Musical selections will include jazz arrangements by Buddy Rich, including "Uptight" and "Mercy Mercy," and classical pieces, "Finale from Symphony No. 1" by Saint-Saens, "Piano Concerto No. 1" by Liszt, and "Concerto in D Major" for guitar and strings by Vivaldi.

### OVER PARADE

## Suits Hit Oceanside Restrictions

By MITCH HIMAKA

Members of the Movement for a Democratic Military and its civilian counterpart, the Green Machine, yesterday filed a federal court suit against Oceanside city officials and police officers asking that the city's parade ordinance be declared unconstitutional and for a court order enjoining alleged harassment of their meetings.

In a separate action, two Marines based at Camp Pendleton asked a federal court order to the base commander withdrawing an order restricting all Marines to the base during May 15 through 18 and specifically to desist from attending Armed Forces Day celebrations in Oceanside.

The two actions were filed with Chief U.S. District Court Judge Edward J. Schwartz and U.S. District Court Judge Howard B. Turrentine.

SEEKS ORDERS TODAY  
Attorney Charles Bumer, representing the parties in both suits, said he will seek court orders today since the suits were filed late yesterday.

The MDM and the Green Machine had sought parade and assembly permits as required under an Oceanside city ordinance. However, the city requires that application for a parade permit be made 30 days before the event and the assembly permit, which also carries a time limit, is given at the discretion of the police chief.

The permits were being sought for use this Saturday for Armed Forces Day.

Superior Court Judge William H. Macomber in a hearing held Wednesday ruled that both ordinances were constitutional and denied the groups their motion for orders to the city officials.

The two organizations additionally ask the court to enjoin the prosecution of six persons arrested April 30 during an assembly in an Oceanside park.

### HARASSMENT CHARGED

The plaintiffs allege the city officials and police have consistently harassed persons attending peaceful meetings of the two organizations in public places in Oceanside.

In the separate action, Marines Bill Chatman and Clifford Mansker, charge that an order restricting all Marines to the base from May 15 through May 18 prevents them from exercising their right to free speech and association on Armed Forces Day.

## Carlsbad Tourist Complex Proposed

### Attraction Would Include 'Castle' Over Interstate 5

By NEIL BALL

CARLSBAD — A plan to put Carlsbad on freeway and tourist maps including a restaurant over the Interstate 5 freeway was outlined here at a recent Chamber of Commerce luncheon.

B. M. Christiansen of Carlsbad, planner of the project, was practicing for his presentation June 12 at "Tourism — A Seminar Of Ideas" at the Newporter Inn in Newport Beach.

He is on the program to discuss a motel-apartments-restaurant complex. Christiansen said he was inspired by the Charles Bridge in Prague, Czechoslovakia. Carlsbad is named for the old-country Carlsbad.

"There will be owners of all types of tourist facilities and financial representatives there," said Christiansen.

He said his plan is to bridge the freeway — now being widened from four to eight lanes — just south of the Jefferson Street overcrossing with a castle-like building. This would be developed in conjunction with motel and parking facilities on 10 acres east of the freeway and south of Buena Vista Lagoon.

"There would be a coffee shop and cafeteria on the lower floor, a cocktail lounge in one of the corners, and a dining room upstairs," said Christiansen.

He said the state has 4,175 miles of freeway covering 1,333,850 acres of space — with wasted space above — and that state highway officials told him they are interested in leasing some of this space.

He said James A. Moe, administrative officer of the California Highway Commission told him, "We have charged the motorists 7 cents tax a gallon gas for some time — now here is a chance to get something back."

Christiansen said the development will require a lease with the state and with construction meeting state specifications.

He said the Prague-inspired theme is good because tourists spent \$400 million last year in San Diego County and 30 per cent of them came from the Great Lakes area which has a big German, Czech and Slovak population.

He said the glass house, built over Will Rogers Turnpike near Oklahoma City, has an average 7,083 cars a day pass through and that last year the restaurant served 600,000 persons.

He stressed success of old world ideas at Disneyland with a Bavarian castle, and Solvang with a Danish village.

Christiansen said the freeway-widening will take two years and his plan would have plenty of time to be developed.

## 6 Students Honored At MiraCosta

VISTA — Six MiraCosta College students have won medals of honor for scholarship and one has been cited for athletic excellence.

Medals including a college seal went to William D. Neiler in business administration, Candis Kolb in communications, Teresa J. Wesel in creative arts, Rollance C. Verkennis in mathematics and science, Charles R. Sullivan in social science and Kenneth A. Larsen in vocational-technical studies.

A plaque was presented to Larry K. Hollins, who last month cleared 7 feet in high jumping.

B. M. Christiansen, Carlsbad developer, shows his latest sketch for a plan to bridge Interstate 5 freeway

with a castle-like restaurant inspired by the old Charles Bridge in Prague, Czechoslovakia.

### STADIUM WORK UNDER WAY

Annie Mayhew, 19, a Southwestern College sophomore, and Jack Corcoran, director of community services, watch work on new football stadium being built this year on the campus. The stadium is planned eventually to seat 5,000 and will be used by the college and the Sweetwater Union High School District. Work started on project this month.

Members of the Rotary Club served as judges for the contest.
