OFF TO AFRICA: Mr. and Mrs. Merlin Adamson, bound for Africa as missionaries, were wished Godspeed by four of Adamson's pupils at Roosevelt High School, from left, Dick Leech, Kendall Kerr, Anne Houghton and Ann Nilsson. Adamson has been a cadet teacher at Roosevelt.

Seattle Couple to Teach in Congo

A young Seattle man and wife who have been doing cadet teaching in Seattle high schools this spring, won't be seeing much of their former pupils for a while. They're headed for the Belgian Congo.

They are Merlin Adamson, 25, and his wife, Vera, 26. Adamson, a graduating senior at Seattle Pacific College, has been teaching French at Roosevelt High School. Mrs. Adamson, who received her degree earlier, has been teaching bookkeeping at Ballard High School.

Africa is familiar country to Adamson. He has spent most of his life there. His parents, the Rev. and Mrs. Frank Adamson, are Free Methodist missionaries.

The younger Adamsons will teach at a Free Methodist mission in the Ruanda-Urundi Province of the Congo, two degrees below the Equator. His parents and a younger brother, David, are at a mission about 150 miles away.

"It's mountainous country, more than a mile high," Adamson said. "Open grassland, mostly — not jungle. There's a rainy season and a dry season, but it's really a wonderful climate."

Adamson learned the native tongue as a child. He has been teaching a smattering of it to his wife.

"Right now I'm more worried about my French," said Mrs. Adamson. The couple will spend 14 or 15 months in Belgium before going on to the Congo. There they will take an orientation course given to missionaries and colonial-government officials going to the Congo.

Adamson has a sister, Myra Adamson, who is taking nursing training at Swedish Hospital. When she is graduated, she will join her brother and her parents in working at the Congo missions.

The Adamsons are packing many of their belongings in 55-gallon steel drums, which will be stored until a short time before they leave Belgium.

"Drums are fine for shipping goods to Africa," Adamson said. "They're good and strong—and they roll easily. They work fine on Congo River boats."
